

THE DAILY APPEAL

H. R. Mighels, Editor.

SATURDAY MORNING JAN. 19, '87

A QUEER CASE OF CONTEMPT.—The San Francisco Times of the 12th inst. relates the following queer case of contempt of Court:

A novel case of contempt of Court was brought before one of our District Judges, several weeks since. It appears that the party charged with contempt is one of the owners of a mine, which is reached by a very deep and narrow shaft. A certain person—we believe, an appointee of the Federal Government in this State—was required to make an examination of the mine, in pursuance of his legitimate employment, but as his presence in the mine would impede the operations of the laborers, the proprietor refused permission to him to go down into it. After some negotiation, which was not successful, he applied to the Court for an order giving him permission to go into the mine. It was granted, and in terms directed the owners to let the officer down the shaft. He took his order and went to the mine. The owner had been apprised of the order and its terms, and when the order reached the mine, he was met by the superintendent, who told him he could go down the shaft on the machinery, but he had been instructed that the order did not provide for his coming up again, and if he went down, he must get up the best way he could. Of course, the party did not go down the shaft, but he returned, and reported the facts to the Court, which cited the owner who had given the sharp instructions, to appear and answer the charge of contempt. The matter was heard; the Judge concluded that the affair was an innocent joke, the only fault being a too literal and narrow construction of the Court's order, and directed the party to be discharged of contempt.

A PATRIOTIC MEXICAN.—The San Francisco Times of the 12th inst. has the following interesting article:

Antonio Manillas, for a long time editor and proprietor of La Voz de Mexico, of this city, will leave by the next steamer for Mazatlan, on his way to the seat of Government of the Republic, which he expects to find in the city of Durango. His object is to obtain from President Juarez some commercial concessions in favor of parties in San Francisco, and a grant of land near Durango, on which it is intended to form a settlement of Americans. Mr. Manillas is a native of Durango, but has resided in this State for sixteen years, and is thoroughly acquainted with our language and customs. During the contest from which his country is just emerging, he has rendered essential service to the Republic, both in supporting its claims and furnishing the materials of war, having acted as agent for General Alvarez and the State of Guerrero in the purchase and supply of arms. By his success in evading the vigilance of the French, in his shipments of arms and ammunition, the Liberal forces in the States of Guerrero, Michoacan, etc., have been kept supplied, and the invaders have never been able to effect a lodgment, except in the port of Acapulco, where they were protected by the guns of their men of war. La Voz de Mexico, under his control, was not only a firm supporter of Republican Government in Mexico, but a consistent advocate of liberty and union in this country.

THE PENDING PRIZE FIGHT IN CALIFORNIA.—The San Francisco Call of Sunday last has the following regarding the coming prize fight which is to take place in San Mateo County:

A gentleman who arrived from the East yesterday, informs us that before he left New York it was reported that a match had been made between Donkey Harris and Tommy Chandler in this city, causing great excitement amongst the "finer," nearly all of whom were offering to bet ten to one on Harris. Professor William Clark, formerly of this city, and Chandler's instructor in the "art," is backing his old pupil for all he can "rake and scrape."

ENGLISH SPARROWS.—The sparrows imported by the Commissioners of the New York Central Park, four years ago, have increased so much that now flocks of one thousand can frequently be seen, though it is said the owls make and leave with them. The sparrows are great enemies of worms, caterpillars and mosquitoes.

TRUTH TOLD OUT.—The Boston Transcript relates the following:

One of our friends was recently blessed with an addition to his household, which came "like a thief in the night." The next day the happy father took his four-year-old boy to the upper room to see the little brother, who was quietly enjoying his first morning nap with his little mouth open. With eyes fixed on the new-comer, and with a countenance showing trouble within, after a few moments of silence the older brother suddenly exclaimed: "I should like to know who pulled out the baby's teeth."

DRESSY.—A correspondent of the N. Y. Herald says that the full dress of a native lady of Colombo is a hair pin and a garter.

THE SITUATION.

The Senatorial contest has taken up so much of our time and attention that we have quite neglected our "log," and have suffered this little craft of ours to drift on without ever taking so much as a dead reckoning. Let us take an observation, and determine, if we can, how fast and in what direction we are drifting.

Maximilian, or Maximilian's soldiers rather, are, it would seem, about doing something which looks as if the Nephew of his Uncle were going to fulfill his agreement to remove the said troopers from Mexico. Heretofore there has been many a slip, if not betwixt cup and lip, at any rate betwixt promising and performing. But we guess the Zouaves will go, sure enough, this pop. Indeed it looks as if the Monroe Doctrine, like ginger beer, will, in due course of time work itself clear.

We have had but little to say lately about the Supreme Court of the U. S. Our opinion of it came out before its opinion of the test oath, and we certainly think ours is the correcter of the two. State Rights is the Northern half of the Democratic creed and it is that heresy which makes Mr. Justice Field and the four associates of his who concur in his rebel-comforting decision think and decide as they do. As we have no hope for their reconstruction, we hope the Court of which they are members may be so overhauled and remodeled as to make their opinions as harmless as those of any other old Democratic logies.

How like wild fire, this fearless, aggressive, hard head "radicalism" is spreading and asserting itself! There never was anything like it! Roscoe Conklyn, one of the wildest and most pungent of the live Republicans of New York; old Simon Cameron, one of the really great men of Pennsylvania; Lyman Trumbull, of Illinois, one of the dearest headed statesmen living; Chas. D. Drake, one of the first men of that great State, Missouri, and though list, least in no particular, James W. Nye, the Grey Eagle Orator of Republican Nevada, are all to hold seats, God willing, in the United States Senate for the six years following the 4th day of March proximo. And it has been decided that such is to be the case, all within a week. Truly these are stirring times.

And what is the circle-swinging here of "my policy" going to do about these radical demonstrations? Does he think that because he is likely to be backed by the Supreme Court of the United States that the present, or, if not the present, the Fortieth Congress, will do nothing to cure the White House and the Supreme Bench of its rebellion apologists? He makes another of his idiotic blunders if he does.

Well, we feel, now that the Gragle as that facetious sheet, the Humboldt Register, very dipthongously dubs the newly re-elected Senator, is safe, we can afford to sleep more soundly than we have been sleeping lately; and we feel too as if a long and steady tension of every nerve of ours had just been slackened up and that we could, with the rest of the rank and file of the radicals, rest easily for the present and look with increased hopefulness into the future. And it is well worth making a note of, that while every legislature that has a Senator to elect chooses a thorough-bred radical, Wisconsin, the State which honored the renegade Doolittle (Nye's oyster) has just been passing a series of resolutions sternly calling upon him to resign. "Things is workin'" and the people of these loyal States are determined to run the machinery of this government after a fashion that will never be submitted for approval to the "Humble Individual," the lofty lordlings of the other side of the Potomac, the five "Conservatives" of the Supreme Bench or any other body or thing than the National Legislature of their own choosing.

FATAL WRIT.—"You can do anything if you only have patience to wait," said an old lady to her son, "water may be carried in a sieve if you can wait." "How long?" queried the son, an impatient Young America, who could hardly wait his father's obituary. "Till it freezes."

SMART WOMAN.—An indignant mother found her two hopeful daughters in a low place of amusement in Chicago recently, and taking each by the hair of the head, led them out of the house, to the great astonishment of the spectators.

BY STATE TELEGRAPH.

[From the Gold Hill News of yesterday.]

New York, Jan. 17.—A New Orleans special says: There is great rejoicing here over the Supreme Court anti-test oath decision.

The Herald's Washington special says: A prominent Western member will soon make a speech in favor of a radical change in the present financial system.

HARRISBURG, Jan. 17.—In the House, a resolution was introduced expressing indignation at the nomination of Senator Cowan as Minister to Austria, and charging President Johnson with heaping contempt and direct insult upon the people of Pennsylvania, and calling upon the Republican Senators and Representatives to oppose his confirmation.

Senator Cameron's speech yesterday contained this sentence: "I hope to live to see the word 'white' stricken out of the Pennsylvania Constitution, and the spirit of caste based on color utterly destroyed."

WHEELING, Jan. 16.—The West Virginia Legislature ratified the Constitutional Amendment to-day.

TORONTO, Jan. 17.—The Constitutional Amendment came up for reconsideration to-day, and passed unanimously.

CHICAGO, Jan. 16.—Lyman Trumbull was re-elected U. S. Senator to-day.

The President opposes the admission of Colorado and favors the admission of Nebraska.

It is stated that sufficient evidence has been laid before the committee to justify Mr. Ashley's action looking toward impeachment.

It is understood that the President has a veto prepared for the bill providing for universal suffrage in the Territories.

The House Committee on Commerce have been directed to inquire the value to commerce of a point on the California Coast as a harbor.

The impeachment project makes no

progress. The Judiciary Committee have not yet begun the investigation. It is now rumored that nothing will be done this winter, as an impeachment by the House is impossible for want of time.

This morning, on motion of Representative Garfield, John M. Langdon, of Oberlin, Ohio, (a colored man) was admitted to practice at the bar of the Supreme Court of the United States.
